

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

February 7, 1997 LB 86, 486

he...(laughter)...you go ahead and that's where that tax value is set. So, if you bought it in that current year, you know, even though it may be a used car, for all practical purposes, it'd been previously titled or whatever, you've still got that large value. What Senator Schellpeper's doing is saying, look, for all practical purposes, it's unfair to tax it at the value of the suggested manufacturer's retail price, that you ought to give it a discount, and that's, I think, what we're doing here. So, when we were talking about what you actually paid for it, that has nothing to do with what you paid for it that first year. It has everything to do with what the tax value on the schedule is that the Department of Revenue puts out, and I think Senator Schellpeper's bill is a matter of fairness and certainly would hope the body would support it.
